PROFILE

My name is Muhammad Muaaz, and I am a recent graduate in Computational Finance. Through my academic journey, I have gained comprehensive knowledge and skills in various areas related to finance and statistics, including the study of the economy and its issues, financial markets, risk management, financial modeling, e-commerce, logical and critical thinking, as well as essential IT-related courses such as predictive modeling, time series analysis, and data mining. With my strong analytical abilities and technical expertise, I am eager to leverage my skills to contribute to the growth and success of a reputable organization in the field of finance or IT.

PROFESSIONAL EXPERIENCE

1. BankIslami Pakistan Limited | Finance Office Currently Working Since June 2022

- Leading the calculation of expected Credit Loss IFRS-9 using Loan Impairment Calculator (LIC)
 - Maintained different type of data templates by gathering data of Financing Portfolio, Investment Portfolio etc.
 - Also Calculated PD, LGD on Excel.
 - Compared the result of ECL through LIC and using Excel.
- Develop the Dashboard of Advancing and Financing Portfolio using Excel.
- MIS Reporting

2. Crystal Media | IT Project Manager Since January 2021

My responsibilities include:

- Aligned goals with executives on scheduling, budgeting, resource management, and style of process.
